

Smart choice for your business. Support for your community. Green for your environment.

ecoServ™ is InstallNET's well-planned and executed decommission strategy for your used furniture and assets that pays dividends to your business. As a single point resource, we'll work to **reuse, resell, repurpose and recycle** your surplus furniture, fixtures and equipment, architectural materials and building assets in an economically, socially and environmentally responsible way—all while cutting costs and saving time. Your community and the environment will thank you!

Economically Beneficial

ecoServ executes sustainable solutions while maximizing financial returns.

- Working with ecoServ's network of liquidation partners in the **resale of marketable surplus**.
- Partnering with the most accredited and highest yielding facilities to **maximize recycling returns**.
- **Tax receipts for donations** when ecoServ matches your surplus to 501c3 organizations.
- Using innovative diversion strategies **mitigates landfill fees**.

Socially Responsible

Your used furniture and office assets can now get a new life.

- With ecoServ, you will **help charitable organizations, public agencies and the underserved**, who are often in great need of your used assets.
- ecoServ and you can **help ease the burden** and save those organizations a lot of money.
- Stand proud as a **steward of your community**. It's a win-win for everyone.

Environmentally Friendly

Small steps have a big impact on the environment.

- **Make a big environmental impact** with ecoServ by helping to keep your used assets out of the landfill.
- **Reduce methane gas emissions**—the second largest factor affecting global climate change—caused by rotting materials in landfills.
- **Reduce your carbon footprint**, keeping unnecessary waste out of the environment.

InstallNET is a national network of installation companies, movers, liquidators and recyclers. Our team services over 100 markets in the U.S. and Canada, with more than 250 independent and professional companies with remote region accessibility. With InstallNET, you have a single point of contact for all your projects, providing peace of mind. And our insistence on quality and great customer service means that all of our installers have been vetted by us to deliver the best possible experience and service to you.
