

# Community Award

The Installnet Community Award recognizes remarkable leadership and unwavering dedication to promoting the well-being of individuals within local communities. This embodies our mission of creating opportunities for people and communities to thrive.

As small businesses, it is important to invest our time, talents and resources into the communities that we serve. By supporting those around us, we can make a positive impact on neighbors and co-workers and encourage others to join in this support.

In 2021, we honored *Mike and Debbie Spears* with our first award by recognizing their involvement with *Sleep in Heavenly Peace*, a group dedicated to providing beds to children that don't have one.

We take pride in recognizing our 2023 awardee and aspire to see their actions serve as an inspiration for others to discover their own means of contributing.

Let us know what you are doing in your community and be our next honoree.
